- Clone a repository
- URL

The screenshot shows the 'Clone a repository' dialog box in GitHub Desktop. It has a title bar with a close button (X). Below the title bar are three tabs: 'GitHub.com', 'GitHub Enterprise', and 'URL'. The 'URL' tab is selected and highlighted with a blue underline. The main area contains a text input field with the placeholder text 'Repository URL or GitHub username and repository (hubot/cool-repo)' and a blue border. Below this is another text input field labeled 'Local path' with the text 'C:\git' and a 'Choose...' button to its right. At the bottom right are two buttons: 'Clone' (blue) and 'Cancel' (light gray).

Clone a repository

GitHub.com GitHub Enterprise URL

Repository URL or GitHub username and repository  
(hubot/cool-repo)

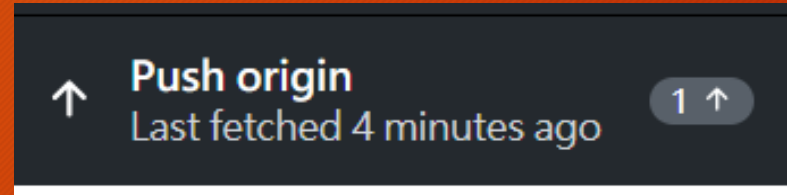

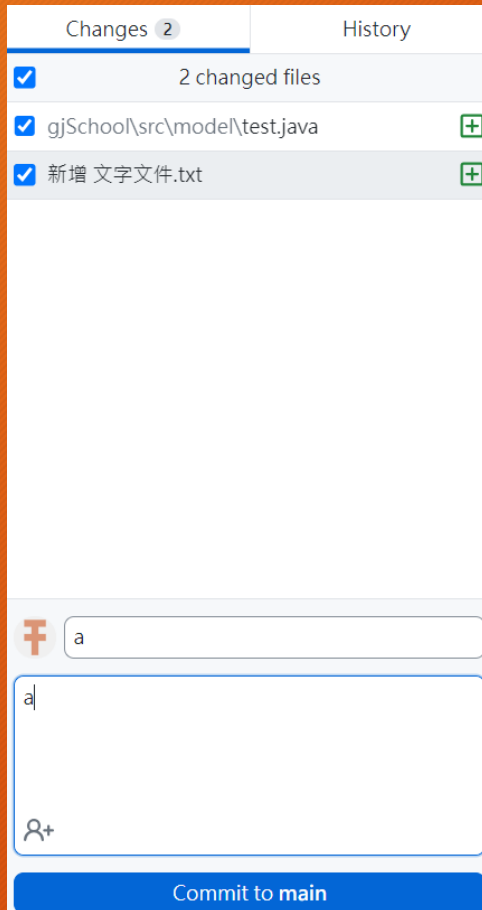

URL or username/repository

Local path  
C:\git Choose...

Clone Cancel
